

**Y42CN01 Outreach Meeting
 March 18, 2026
 Questions and Answers**

Question	Response
What is the role of Delve Underground and JRigney Engineering during Construction Phase Services?	This will be answered in subsequent procurement documents as appropriate.
Will alternate technical concepts (ATCs) be allowed?	This will be answered in subsequent procurement documents as appropriate.
Considering the amount of hazardous materials/ contaminated soils identified at this site will there be an allowance or separate bid item outside of the estimated \$42M construction cost?	This will be answered in subsequent procurement documents as appropriate.
Will confidential meetings during the bid process be included exclusive of the ATC process? In the development of the best value approach, this allows teams to ask critical questions that allow better ideas to be generated towards the bid.	This will be answered in subsequent procurement documents as appropriate.
With 161 +/- people on this pre-bid meeting, will you reconsider sharing the email addresses of the people that attended the meeting since this will allow teams to identify interested and qualified teaming partners.	The attendance list is posted on the website.
I am wondering if you are going to post the meeting attendance from yesterday's zoom meeting for the above contract. Will you please let me know?	The attendance list is posted on the website.
Has a decision been reached on sharing the RHAT Briefing attendee list with those in attendance? It was a public meeting, and one was able to see the attendees, but at 171 in attendance there were too many to copy. It would be helpful in creating a responsive team to see which firms were interested in the project, in order to have a more efficient teaming process.	The attendance list is posted on the website.
