MBTA Contract No. Y42CN01- DB Red Line Hi-Rail Access Tunnel, Cambridge, MA

The Massachusetts Bay Transportation Authority (MBTA) is planning on advertising for Design Build services for the **Red Line Hi-Rail Access Tunnel in Cambridge, MA**

This project will provide a new access point to the Red Line at Alewife Station. The MBTA Red Line subway northwest of the Charles River operates in a below grade tunnel. Maintenance access is four miles from Alewife Station at the First Street gate. The existing tunnel is over 25-ft below ground surface near Alewife.

Anticipated Advertisement Date: April 2026
Estimated Construction Cost: \$42,000,000.00

We encourage all firms to [register](#) with our contractor networking list to receive notifications for this project and all future MBTA projects.

Please visit our [Business Center](#) for current and future opportunities. Questions can be sent to altdelivery@mbta.com.

We look forward to seeing you there!
